

**WE ARE PLEASED TO SEND INFORMATION  
ABOUT OUR STREET ACTION : «KLOWN KONZEPT»**

« KLOWN KONZEPT » is a tribute to all clowns and to the every where audience without whom theater does' nt exist. The Klown's actions are a mute declaration of love to the whole humanity, and also a fragile but essential reply against the barbarity of our world.

Accompanied by the photographer the Klown walks all day long, everywhere around the city, playing with people.

The photographer's priority is to capture the emotions of the audience more than the Klown's attitudes. The photo gallery of the city's inhabitants is then available.

« KLOWN KONZEPT » was created in July 2015 for the International Streets Theaters Festival of Krakow in Poland and performed in different cities since this time.

You'll find the galleries of pictures we made on : [KLOWN KONZEPT](#)
